

Pre-conference workshop

Residue analysis for dummies - a pre-conference workshop to familiarize yourself with concepts and colleagues

Sunday, May 17th, 1-5 pm, Hotel Zuiderduin, Egmond aan Zee

This pre-conference workshop is a must for everyone new at EuroResidue!

Description

Before the EuroResidue IX conference, a workshop will be organized for colleagues new in the field of veterinary drug residue analysis. This workshop aims at familiarizing yourself with specific legislative and technical aspects of the field, to discuss the main topics of the EuroResidue IX conference, to get to know new colleagues and expand your network. The workshop will be highly informative, interactive and guaranteed to be a lot of fun as well.

Main topics:

- Relevant EU legislation, current and future trends
- National Monitoring Plans
- Registered and banned compounds
- Validation, including CC α and CC β
- MRL/MRPL/RPA, zero tolerance
- EURL-NRL-OL structure
- Important topics of the EuroResidue IX conference

Target audience:

Colleagues new in the field of veterinary drug residue analysis. Criterion: first-time attendee of the EuroResidue conference.

Trainers:

Bruno Le Bizec, PhD - LABERCA, Oniris, Nantes, France

Gaud Dervilly, PhD - LABERCA, Oniris, Nantes, France

Bjorn Berendsen, PhD - Wageningen Food Safety Research (WFSR), Wageningen, The Netherlands

Marco Blokland, PhD - Wageningen Food Safety Research (WFSR), Wageningen, The Netherlands

Registration:

Congress service: euoresidue@congresservice.nl

Minimum number of participants for the pre-conference workshop: 15. Maximum number: 50
